PROFILE

Passionate recent MCA graduate seeking software engineering and development opportunities. Strong problem-solver, team player, and dedicated to enterprise-level applications. Ready to bring innovation to collaborative projects with a creative mind and artistic skills suited for design roles.

PROJECTS

SIGNALING   2024

Project which enable gestures and voice commands to control mouse virtually.
Developed using CNN, Midiapipe, machine learning frame work.

MENTAL MENTOR - MACHINE LEARNING WEB APP   2023

Project analyzes the mental health of a person by taking the survey as input and guides for the proper treatment also includes library of mental health exercises .
Developed using multiple classifiers(SVC,Random Forest,naive bayes etc).
Framework : Python - Streamlit

LIBRARY MANAGEMENT SYSTEM - WEB APP   2022

Project focused upon library management which enables to stores book information and related details electronically.
Front end: PHP │ Backend: MySQL

EDUCATION

Master in Computer Application   2022–2024
College of Engineering Trivandrum(CET) │CGPA: 7.21

Bachelor of Science in Computer Science   2019–2022
UIT Pirappancode │CGPA: 6.75

ADDITIONAL INFORMATION

Programming Languages: Python, Java, C, SQL
Web Development: JavaScript, PHP, React, Software Development Methodologies
Data Markup & Standard: HTML5, CSS3
Database: Mongo DB, MySQL
Data Science Skills: Data Analysis (Pandas, NumPy), Machine Learning (TensorFlow, Scikit-learn, Keras, Streamlit), Deep Learning (Neural Networks, Convolutional Neural Networks), Data Visualization (Matplotlib), MediaPipe
Soft Skills: Leadership, Strong communication, Team Work, Problem Solving, Adaptability, Time Management, Creativity, Flexibility

CERTIFICATIONS

INTRODUCTION TO OPERATING SYSTEMS
INTERNET OF THINGS (IOT) from IIT Madras

ACTIVITIES

Team Leader(MCA: First Runner up)-Tharangham (PG-PHD Cultural Fest CET(2024))
Literature writing/Fiction writing, Social Media Content writing
Digital Artist, Acrylic Painting, Stencil Artist
